

JACQUES DELORS ET LA VISION SUR LE PROCESSUS DE L'INTEGRATION EUROPEENNE

Cristina Maria DOGOT

Abstract: *The present article tries to underline the role of a key personage of the process of the European construction, Jacques Delors. Unanimously recognized as a being as important as the “founder fathers” of the European Union, Delors contributed to the adoption of two major documents of the European Union: the Single European Act and the Treaty of Maastricht. On the other hand, Delors was the artisan of two important European Union policies: social policy and the monetary policy (materialized by the European Monetary Union).*

Key words: *Jacques Delors, European Commission, Europe, European Union, subsidiarity, federalism*
