

PROLÉGOMÈNES À UNE THÉORIE COSMOSYSTÉMIQUE. L'APPROCHE COSMOSYSTÉMIQUE DE L'HISTOIRE ET L'HELLÉNISME¹

*Georges CONTOGEORGIS**

Abstract. *This comparative vision of anthropocentric character at global scale and the demonstration with regard to the rise of anthropocentrism of Hellenic cosmosystem do not mean a return to the small scale of Cosmos. The edification at the grand Cosmos scale is not a given fact, but a capital positive evolution in the sense of progress.*

But the deepening of the cosmosysteme nature of social phenomenon will allow to modernity to conquer the necessary self- knowledge concerning his antropocentric stage, it will make possible to meet the history on new bases, it will conduce to a new periodization of continuous evolution of human being and, in consequence, it will facilitate the ellaboration of a project for the future which will reconcile the notion of progress with the notion of anthropocentric development.
